JOIN US. HERE’S HOW:

Educational Programs: Enroll in an ophthalmic training program sponsored by colleges, universities, hospitals, medical schools, or other institutions that meet national accreditation standards.

— OR —

On the Job: Most Allied Ophthalmic Professionals (AOP) are trained on the job in an ophthalmologist’s office. They complete an approved independent study course while gaining clinical experience.

Salaries for entry-level assistants begin at $35,000. Experienced staff average between $68,000 - $76,000.

“I currently serve as a Lead Ophthalmology Technician at a National Medical Center. I hold three different certifications in Ophthalmology. I often tell my peers that we are the heart of the clinic – meaning the core! As residents rotate and then graduate and active duty physicians are deployed or out on TAD, we are the one constant in this clinic and our patients appreciate it. The eyes are the most sensitive spot on the body and sight is the most treasured sense of them all. It is rewarding to play a vital role in helping others to maximize and/or maintain their vision. I can honestly say that I LOVE what I do!”

— Latosha A., COA, OSC, OSA (GS-Civilian)

• Military personnel and veterans can apply for reimbursement of their education, continuing education, and certification expenses by approved certification providers.
• The Montgomery GI Bill will pay for your certification exam.
• Previous experience in eye care is not required.
• 90% of ophthalmic technicians are trained on the job.
• More than 73% of employers pay for continuing education and recertification.

“I have excelled in civilian practice, as well as in the military, now running the ophthalmic practice in Tampa, FL, for the USAF. Due to the knowledge I learned in the ophthalmic military technical school, and the IJCAHPO certification, I have been able to expand my career beyond my expectations. Becoming an ophthalmic professional has solidified my foundation for success.”

— MSgt Andrew L., COA (Air Force Reserve)

IJCAHPO is the non-profit organization that offers certification and continuing education to Allied Ophthalmic Personnel.

ATPO is the non-profit ophthalmic membership association that provides support beyond certification and is focused on your future. They can connect you with someone who can provide career information.
